WE TRANSLATE THE WORLD!

Since 1990

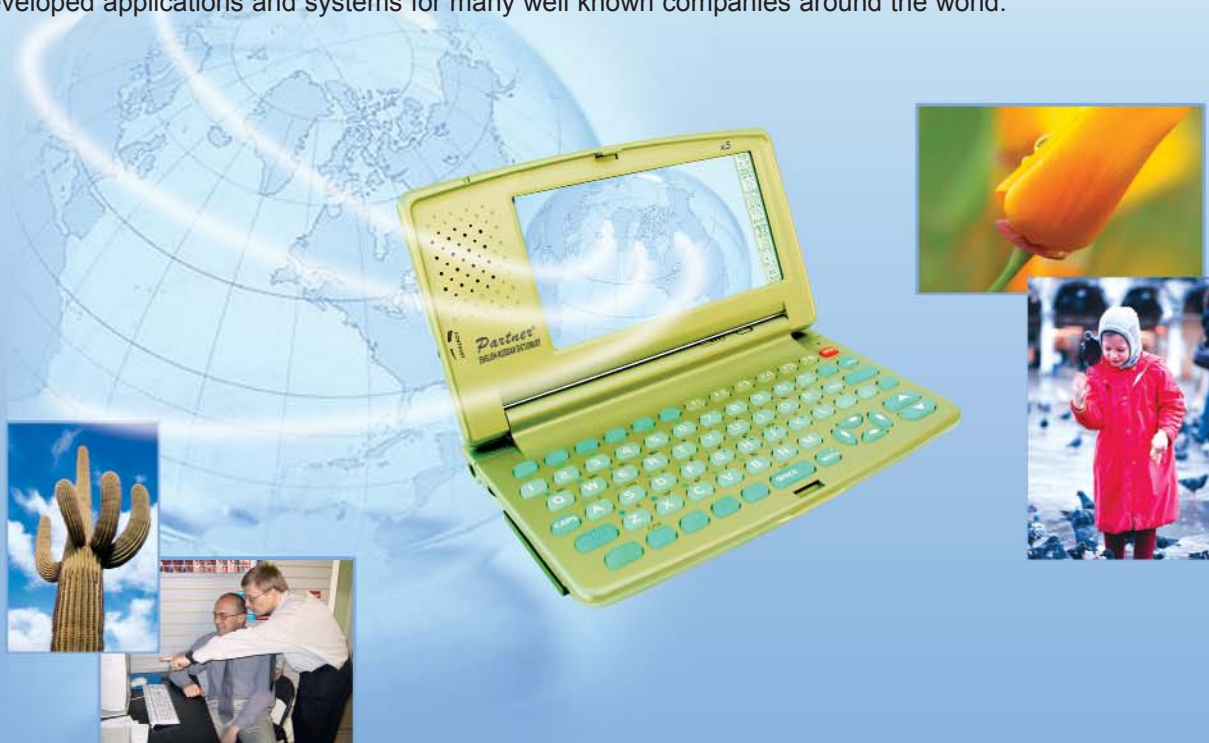

Ectaco is the world leader in the development and manufacture of the electronic handheld dictionaries. Since the foundation of the company in 1990, we have produced 6 generations of electronic dictionaries **Language Teacher®** and **Partner®** translating from/into over 50 languages. The high level of expertise and experience of Ectaco linguists, programmers, designers and engineers have resulted in the creation of dictionaries with modern design, high-quality linguistic bases and the widest range of features.

Millions of people all over the world use our dictionaries. They are ideal for business people, tourists, professional interpreters, students, and are essential for emigrants and immigrants. The wide selection allows a customer to find the model which completely satisfies his or her needs. To survey and satisfy our customer's needs as much as possible, we have created a network of offices in various countries. Ectaco has offices in 16 countries, where one can obtain all necessary information.

We are constantly developing our dealer network to be closer to our customers. In case you or your company are interested in long-term cooperation with Ectaco on the growing market, you are welcome to visit section For Dealers at our web site <http://www.ectaco.com/fordealers>, or contact the Ectaco office nearest to you.

Ectaco Development Center (EDC) was created especially for the development of Ectaco's consumer products. The engineering cycle at EDC includes every development stage - from initial ideas implemented in technical descriptions to creation of working samples and organization of manufacturing. Using its own linguistic databases, EDC has developed a series of software products for the most widespread platforms such as Windows and Linux, as well as for handheld devices such as Pocket PC, Palm, Epoc).

Total company staff numbers approximately 400 employees. Ectaco engineers, linguists and programmers have developed applications and systems for many well known companies around the world.

In the 2002-2003 catalogs we present our latest models for more than 20 languages.

Find more about the most popular product lines, like:

• **The Partner® Universal Translator™ (UT Series)** is an English-to-Spanish/French/German/Russian/Polish/Chinese/Korean phrase bank with speech recognition capability. You say a phrase in English, the machine recognizes what you said and pronounces the Spanish, French, German, Russian, Polish, Chinese, or Korean translation of the phrase. The reverse translation from these languages into English is also available. Not only does the Pocket UT allow you to communicate in a foreign language, but it also helps you learn it. With the UT, learning is natural and does not take much effort - by simply listening to the phrases and repeating them often, you will memorize them easily.

The UT contains about 3,000 phrases. These phrases are specially selected to satisfy 80% of international travelers' communication needs. For users' convenience, all the phrases in the Pocket UT are organized in 15 topics.

• **The Partner® v6 series** - the first-ever electronic translators that understand you! Using unique speech recognition technology, the Partner® V6 translates phrases from Russian into English. Moreover, the Partner® V6 allows you to send a fax and to work with e-mail as well. A comprehensive machine translation module allows you to translate large texts with a single click.

• **The Partner® X5 series** is based on the improved Partner® v6 platform. These integrated linguistic systems combine the powerful capabilities of the Partner® v6 with UT speech recognition technology, resulting in a unique set of features.

• **The Partner® 400 series** represents the latest generation of economy high-performance integrated educational tools available on the market. Each dictionary contains over 520,000 translations including 17,000 medical, 16,000 technical, 12,000 business and 10,000 legal terms. Dictionary updates are available via the Internet. Unlimited voice function is able to generate pronunciation of any text, not only dictionary entries. Over 1,200 commonly used and emergency phrases in 12 topics will help you feel comfortable in almost any situation on a foreign trip.

New models are on the way.

Partner®
LINGVOBIT™
powered

The Lingvobit™ speech recognition platform designed by EDC is also worth mentioning as it has been applied in many consumer electronic devices and software products. This flexible technology platform is an efficient, speaker-independent, compact, stand-alone or embedded speech-processing instrument allowing speedy creation of various systems or applications ranging from handheld to server-based ones. For more information please contact the Ectaco office nearest to you.

Ectaco offices are listed on page 45.

● UT-103

■ Universal Translator™ UT-103

MULTILINGUAL SPEECH-TO-SPEECH TRANSLATOR

The Universal Translator™ UT-103 is powered by the unique Lingvobit™ speech recognition system - say a phrase in English and Universal Translator™ UT-103 will recognize it, translate it into any of three languages - French, German, or Spanish, and read this translation aloud!

Universal Translator™ UT-103 is a powerful communication tool.
Over 3,000 commonly used phrases presented in:

Everyday Conversation	Post office
Housekeeper (new!)	Telephone
Traveling	Bank
Local Transport	Sightseeing
Driving	Beauty salon
Hotel	Health
Restaurant	Sport
Shopping	

New topic added - Housekeeper.

The phrases are selected to cover about 95% of the communication needs of the property owners or tenants dealing with non-English speaking housekeepers. Now the UT-103 recognizes over 200 phrases on the subject, translates them into Spanish, Russian or French, and pronounces them.

- Bonus CD with Language Teacher® dictionaries for Windows® 9x/2000/NT/XP, Pocket PC, Palm OS®, EPOC.

● UT-103

■ Universal Translator™ UT-103

MULTILINGUAL SPEECH-TO-SPEECH TRANSLATOR

The Universal Translator™ UT-103 is powered by the unique Lingvobit™ speech recognition system - say a phrase in English and Universal Translator™ UT-103 will recognize it, translate it into any of three languages - French, German, or Spanish, and read this translation aloud!

*The Universal Translator™ UT-103 is a powerful communication tool.
Over 3,000 commonly used phrases presented in:*

Everyday Conversation • Housekeeper (new!) • Traveling • Local Transport
Driving • Hotel • Restaurant • Shopping • Post office • Telephone • Bank
Sightseeing • Beauty salon • Health • Sport

New topic added - Housekeeper. The phrases are selected to cover about 95% of the communication needs of the property owners or tenants dealing with non-English speaking housekeepers. Now the UT-103 recognizes over 200 phrases on the subject, translates them into Spanish, Russian or French, and pronounces them.

Also: digital voice recorder, clock, alarm

• Bonus CD with Language Teacher® dictionaries for Windows® 9x/2000/NT/XP, Pocket PC, Palm OS®, EPOC.

Ectaco Development Center

EDC in brief

Ectaco, Inc. is a privately held corporation founded in 1990 with headquarters in New York City. Throughout its 12-year history, Ectaco has greatly benefited from its investments in its own research and development department. Over the years, Ectaco Development Center (EDC) has grown into an independent software design and development organization that services not only the needs of Ectaco, but also works on software outsourcing projects for other IT companies. EDC's main development facility is in St. Petersburg, Russia. It has over 150 certified software programmers, engineers, documentation specialists and other IT professionals available for outsourcing projects.

<http://www.softwareoutsourcing.net>

EDC (<http://www.softwareoutsourcing.net/>) focuses on design and development of both hardware and software solutions for portable electronic data reference devices and advanced linguistic applications for more than 30 languages. The scope of work includes multilingual interfaces, large dictionary databases, voice compression, human language translation systems, voice recognition for embedded systems and a variety of other applications. In the last year alone, EDC released 15 new language projects and 4 new hardware platforms. In 1999, the Consumer Electronics Association awarded one of our products the Innovations Design & Engineering Excellence Award at the 1999 Consumer Electronics Show in Las Vegas.

Our expertise in design and development of software applications and embedded systems has been recognized by major US and European corporations. Our knowledge and in-depth understanding of today's IT environment provides us with a competitive edge, and our experienced U.S. management team guarantees customer satisfaction.

2. Speech Recognition Software Products

Universal Translator™ for Pocket PC English -> Spanish / French / German

The Pocket UT is an English to Spanish/French/German phrase bank with speech recognition capability. You say a phrase in English, and the machine recognizes what you said and pronounces the Spanish (French or German) translation of the phrase. Pocket UT allows you not only to communicate in a foreign language, but to learn it as well. With the UT, you can practice every day and remember phrases easily. With the UT, learning is natural and does not take much effort - by simply listening or repeating the phrases often, you will remember them easily.

Pocket UT contains approximately 2,600 phrases. These phrases were especially selected to satisfy 80% of the communication requirements of travelers abroad. For the convenience of the user, all of the phrases in the Pocket UT are presented in 12 subject categories.

Law Enforcement Universal Translator™ for Pocket PC English -> Spanish

Police often interact with Spanish-speaking citizens, and that is why knowing even a small collection of phrases greatly helps in their work.

The Police UT is an English to Spanish phrase bank with speech recognition capability. You say a phrase in English, and the machine recognizes it and pronounces the Spanish translation.

The phrase bank consists of phrases called for by policemen themselves, and contains more than 2,300 phrases.

These are broken down into the following groups:

1. General
2. General Questions
3. In the car
4. Arresting people
5. Police Department
6. Witness or Victim
7. Crime scene
8. Jail
9. Useful words

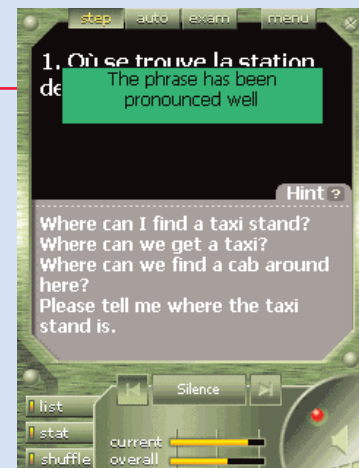

Accent Remover for Pocket PC

In studying a foreign language and trying to pronounce phrases, it is helpful to have an audio practice aid. It is almost impossible to learn how to speak correctly on your own. Now you have a new, thoroughly contemporary way to study the English language - the Crystal Clean Accent Remover.

Accent Remover is a phrase bank that contains the most commonly used phrases. These were especially selected to satisfy 80% of the communication requirements of travelers abroad. Most of the phrases in the Accent Remover exist in several different versions, providing you with some latitude in choosing the way you want to say something.

You read a phrase in your native language and say its translation in English. Accent Remover gives you the sample of the proper pronunciation and grades your own pronunciation, thereby coaching you just like a real teacher.

With the Accent Remover, learning is natural and does not take much effort - simply by listening or repeating the phrases often, you will remember them easily.

EDC Speech Technologies

SPEECH RECOGNITION:

Our speech recognition systems may be integrated into other technology in a variety of ways: from voice operation in handheld devices to public information systems. Low memory and electricity consumption requirements were achieved using the latest mathematical apparatus and linguistic know-how of Ectaco, Inc. Linguistic research shows that human beings are capable of producing not more than approximately 1,000 different sounds. The quantity of sounds used varies from language to language. Using this knowledge allowed us to create a universal, speaker (and language) independent system with a recognition accuracy of approximately 98%.

Our SR solution is compact and was developed and optimized for implementation in portable devices and embedded systems.

TTS (TEXT-TO-SPEECH) TECHNOLOGY:

Developed by Ectaco, Inc., this technology allows the pronunciation of any word or phrase written in a format understandable by the system. Initially, the system was used for English, but the versatility of the technology has allowed us to widen the selection of available languages to Hebrew, French, German, Greek, Portuguese, Russian and Spanish.

Linguistic Databases

To create the most complete and contemporary dictionary databases in over 50 languages, we employ experienced professional linguists who are native-level in their respective languages. They combine their expertise with a variety of up-to-date and authoritative sources to create reference works with the most comprehensive content, including the latest colloquialisms and slang.

BILINGUAL DICTIONARY DATABASES

Bilingual bidirectional databases contain about 400,000 words each. They are organized to secure quick bidirectional translation between the given languages when built into devices or machine translation systems. Source words can have more than one translation.

MULTILINGUAL DICTIONARY DATABASES

Multilingual databases with English as a source language are organized to secure quick translation between any of the given languages when built into devices or machine translation systems, the source word being translated into all present languages simultaneously.

SPECIALIZED DICTIONARY DATABASES

English-Russian specialized databases containing specific industry terms. These databases do not include the commonly used words and expressions that are presented in our unabridged English-Russian dictionary database.

MORPHOLOGICALLY CODED DICTIONARY DATABASES

Morphologically coded language databases comprise words and their translations, appropriate source and target language paradigms being assigned to each inflected word; as well as semantic-syntactic characteristics that include all analysis-critical information such as part of speech, tense, aspect, mood, voice, case government, person, number, gender, etc.
